

## FAQ – Frequently Asked Questions

### 1. Application, participation, fees and refunds

- ✓ **If I apply, when will I know whether Term I can take place?**  
*Our standard application deadline is December 6, 2022. Four weeks before the start of the program at the latest, a decision will be made by the program whether the respective summer term can take place as planned.*
- ✓ **If Term I 2023 needs to be cancelled before its start, due to the pandemic, will I be reimbursed any fees already paid?**  
*If such a cancellation is announced before the start of the program, any fees already paid will be fully reimbursed.*
- ✓ **Will I be reimbursed my fees if German/EU borders are closed to international travel?**  
*If a renewed lockdown or other pandemic-related developments before the official starting-date of the term cause a closure of German/EU borders, thereby preventing participants from travelling to Berlin, any fees already paid will be fully reimbursed.*
- ✓ **Will I be reimbursed any fees if the program has to be cancelled during the term?**  
*If pandemic conditions cause a termination of the ongoing term, instruction will shift online. Students who opt to return home at that point in order to continue their FUBiS studies from abroad/overseas will be eligible for a refund of unused accommodation and excursion fees, if these are still recoverable at that point in time.*

### 2. Arrival/ Accommodation/ Quarantine regulations

- ✓ **How will the pandemic impact my travel to and arrival in Berlin?**  
*Please check appropriate sources regarding international travel, vaccination, and quarantine regulations at your country of arrival regularly. Up-to-date information is available at the following websites:  
<https://www.bmi.bund.de/SharedDocs/faqs/EN/topics/civil-protection/coronavirus/coronavirus-faqs.html#doc13797140bodyText3>;  
[https://ec.europa.eu/info/live-work-travel-eu/coronavirus-response/travel-during-coronavirus-pandemic\\_en](https://ec.europa.eu/info/live-work-travel-eu/coronavirus-response/travel-during-coronavirus-pandemic_en); <https://www.auswaertiges-amt.de/en/visa-service/EinreiseUndAufenthalt>;  
<https://www.zusammengegencorona.de/en/?articlefilter=all>. At the time of actual arrival, whether by means of an overseas flight or via a land-route from another country, a mandatory Corona-test may be required at the European and/or German border before one is allowed to enter. If public authorities in Berlin require you to be tested for the virus upon arrival, this will either already take place at the airport or train station or you will be given instructions for a test to be conducted as quickly as possible elsewhere. Mandatory, short-term quarantine policy may also be evolving and applicable. Should such a mandatory, short-term quarantine be required of you, the program will render assistance where possible.*
- ✓ **What do I need to know about the on-campus check-in?**  
*All participants, regardless of their housing choice, are expected to come to campus on Wednesday, January 4 for the official orientation event of the program. Check-in details will be sent out before your departure for Berlin. Check-in on campus will occur in accordance with our basic hygiene policies. If mandatory quarantine prevents a participant from coming to campus for the orientation events, alternative*

check-in arrangements will be made and carried out. If you are required to quarantine, this will be carried out at your chosen accommodation. In case that is not possible, the program will assist in setting up alternative quarantine arrangements. Students in quarantine in a homestay will receive breakfast and dinner as part of their fees (lunch expenses are not included), those in other housing options are responsible for their own food expenses.

✓ **How will the pandemic impact my accommodation in Berlin?**

Students residing at the Student Village or the Ju-Li Hostel will be subject to the pandemic- and hygiene-related policies and regulations as well as the general house rules in force at these locations, as communicated before and/or upon arrival. See also the following websites:

[http://www.fubis.org/3\\_unterbr/wohnheim/dorf/Hygienekonzept-Studentendorf-Schlachtensee-eG.pdf](http://www.fubis.org/3_unterbr/wohnheim/dorf/Hygienekonzept-Studentendorf-Schlachtensee-eG.pdf), <http://www.ju-li.de/>. Homestays feature policies and regulations developed jointly by the homestay hosts and the program in accordance with official hygiene and public health requirements; these will also be communicated before and/or upon arrival (see: [http://www.fubis.org/3\\_unterbr/gastfamilie/COVID-19-health-and-safety-measures-for-homestay.pdf](http://www.fubis.org/3_unterbr/gastfamilie/COVID-19-health-and-safety-measures-for-homestay.pdf)). Relevant information is also either listed or linked to in the housing section on the FUBiS website:

[http://www.fubis.org/4\\_life/3\\_unterbr/index.html](http://www.fubis.org/4_life/3_unterbr/index.html).

✓ **What is the program's quarantine policy?**

If a participant needs to be placed in quarantine upon arrival or after the term gets underway, appropriate arrangements will be made, in accordance with the specific location where the student is living. Students housed independently would be required to make their own arrangements in this case, with assistance and advice provided by the program where possible.

### 3. Daily life in Berlin

✓ **What do I need to know, and where can I find up-to-date information?**

Pandemic-related policies and regulations in Berlin currently in effect include: wearing masks in some public places (public transportation, medical facilities), personal hygiene, voluntary quarantining and so forth. Here are useful websites for up-to-date information: <https://www.berlin.de/corona/en/>. A map of available testing facilities in Berlin is available here: <https://www.direkttesten.berlin/> (in German). For current information on vaccination options in Berlin, you can look at <https://www.berlin.de/corona/en/vaccination/>. Please note that the pandemic still causes restrictions with respect to events and activities involving larger groups of people, such as sports games, concerts, club life, etc. Access to various cultural activities and events may be curtailed, restricted, regulated via online ticketing only, etc. The program expects all staff and participants to act responsibly and in accordance with clearly announced regulations and policies with respect to the pandemic, both on- and off-campus.

### 4. Conditions on campus

✓ **What pandemic-related arrangements have been made on campus?**

Based on Berlin authorities' and university regulations, we have put in place policies and arrangements to ensure proper hygiene safeguards regarding instruction and other activities in our campus facilities. One of our key informational documents can be found here: [http://www.fubis.org/6\\_safety/COVID-19-Info-FUBiS-ENG-2023.pdf](http://www.fubis.org/6_safety/COVID-19-Info-FUBiS-ENG-2023.pdf).

✓ **Will the campus cafeteria be open and available?**

*The campus food service (Mensa) – not included in any of the FUBiS fees – has been open regularly for the past six months. Should this change during the coming fall and winter months, participants will be given advice on how to make alternative arrangements for their lunch meal.*

**5. Program adjustments, if needed**

✓ **How will the program be adjusted for me if pandemic-related developments (such as quarantine) prevent me from attending class?**

*Should this scenario materialize, the program will ensure that the affected participant can continue their coursework and studies in order to complete the term, including the use of online resources. The program is under no obligation, however, to provide either a laptop or PC or to arrange internet access (the latter is particularly important for students opting to set up their own accommodation).*

✓ **How will the program be adjusted in case of a renewed lockdown?**

*If pandemic-related developments, such as a renewed lockdown, impact the program in its entirety, arrangements will be made for all students to complete the term in an alternative way. The program will make every effort to enable participants to complete the term successfully on-site in Berlin, most likely via online instruction. The program is under no obligation, however, to provide either a laptop or PC or to arrange internet access (the latter is particularly important for students opting to set up their own accommodation).*

**6. Local field-trips and excursions**

✓ **How is the pandemic expected to affect the local field-trips and the excursions?**

*The program will endeavor to carry out the excursions as planned, but for the time being these will be focused on destinations in Berlin and its surrounding area. Travel will take place by bus and/or train, subject to all pandemic-related measures that the companies running these busses or trains have put in place. The program and its participants will be required to observe whatever regulations are in place at these various sites. As for local, inside-Berlin field-trips, these will be conducted in accordance with any regulations put in place by local authorities and by these specific sites (museums, memorial sites, government institutions, etc.) themselves.*

**7. On-site healthcare services**

✓ **What services will be available?**

*Beyond the broadly based, non-pandemic-related regular medical services available to participants, the program will provide referrals to students in need of specific, pandemic-related services, such as testing or quarantine-related matters. For situations involving the pandemic, the primary referral will be to the local public health offices (Gesundheitsämter), which serve as central coordinating service points.*

✓ **Will I be covered by insurance?**

*Participants can choose to be enrolled in German medical insurance ([http://www.fubis.org/5\\_geb/versicherung/index.html](http://www.fubis.org/5_geb/versicherung/index.html)) as part of the program. However, medical conditions that already existed before the start of the program are not covered by the insurance issued through the program. This also means that costs related to a Corona-infection diagnosed within the first two weeks of one's stay in Berlin will not be covered by the program's insurance (due to the incubation period*

*associated with the virus). All participants are urged to retain medical insurance coverage back home during their time in Berlin as well.*

✓ ***How can I get tested in case of suspected symptoms?***

*If you have relevant symptoms or you suspect that you could be infected with the coronavirus, you should get tested at one of the facilities listed here:*

*<https://www.berlin.de/corona/en/testing-facilities/> (costs may be incurred for testing). Even before you have your test results, you should self-isolate at home, maintain a distance of two meters to other people, follow the rules for handwashing, and wear a mask covering your mouth and nose, ideally a medical mask, when you are in contact with others. The program should be notified immediately of a confirmed Covid-19 infection. Please also see the information under “**What do I need to know, and where can I find up-to-date information?**”*
